Professional Summary

I have been consistently working in the last years as Warehouse Operative, on a busy environment, in various departments at different levels. I have an excellent track record of attendance, health and safety, increased efficiency and reduction of costs.

I work quickly and efficiently in getting things built and working across the stack. I am an excellent communicator who thrives in bright and enthusiastic teams, and I'm also a self-starter when working solo. Skilled on working with large volumes of data and goods I bring with myself the experience and efficiency gained during years.

Looking to secure a role as Full Stack Web Developer.
